

The Lighting Company

FOUR SEASONS HOTEL, LIMASSOL

Type: Indoor installation

Date: October 2005

Location: Limassol, Cyprus
Europe

Products Used: XR7 spot

The Four Seasons in Limassol, Cyprus, is a 5 star hotel that combines the beauty of a splendid location on an enchanting stretch of coastline with the prestige of a luxurious, modern building and impeccable service.

These characteristics place the hotel among top international tourist complexes. The Four Seasons Hotel management boosts its success further with a policy that constantly strives to improve the quality of services and facilities offered.

Thus the Four Seasons hotel has recently refurbished its sumptuous ballroom, renewing the AV lighting systems. The lights had to be discrete, unobtrusive and able to blend with the architectural features of the room. From a functional point of view, power and versatility were required in order to light and colour spectacular events creatively.

XR7 moving head projectors were chosen for this task, four of which were installed on the ceiling in an elegant version with a white finish.

The installation was carried out by A.L.A. Equipment Company Ltd of Ayia Napa, Cyprus.
